

REACTOR SYSTEMS FROM 3V TECH

Customized Solutions to individual Needs

3V Tech's Process Group supports our Glasscoat®, Cogeim® and Mabo® brands by designing systems to meet individual customer specifications. The 3V Tech Engineered Systems approach leverages the full spectrum of our capabilities to offer complete packaged process solutions for reaction, thermal separation, solid-liquid separation and drying.

Our skid mounted systems incorporate automation, local control panels, instrumentation, valves, fittings, vacuum units, TCUs as well as other peripheral equipment and combine them with the best combination of equipment from Glasscoat®, Cogeim® and Mabo®.
